

QUALIFICATION FILE - Standard

Assistant Technician-Street Light Installation and Maintenance

Type of Training: Short Term Training (STT)

Type of Qualification: General

Type of Categories: Upskilling

NCrF/NSQF Level: 3

Submitted By:
Power Sector Skill Council
Email : ceo@psscindia.org , Website : https://psscindia.org/

Section 1: Basic Details

1.	**Qualification Name**	Assistant Technician-Street Light Installation and Maintenance	
2.	**Sector(s)**	Power	
3.	**Sub-sector(s)**	Down Stream Distribution	
4.	**NCO/ISCO Code(s)** *(If code is not available then mention the same.)*	NCO Code : N/A , ISCO Code :N/A	
5.	**Occupation(s) Name** *(As per Occupational Map or NCO if available.)*	Erection, Installation and Commissioning Distribution and Operation and Maintenance Distribution	
6.	**Type of Qualification:** New **Qualification has:** Not applicable *(Select none, both or either, as applicable)*	**7. If *Type of Qualification* is Revised, provide Existing Qualification Details** *(As per NQR)* **:** **a. Qualification Name :** N/A **b. NQR Code:** N/A **c. Version:** N/A	
8.	**Qualification, if Developed in Collaboration with MNC*** *Multinational Companies (MNCs) and Leading Indian Enterprises including Original Equipment Manufacturer (OEM), Original Design Manufacturer (ODM) and Value-Added Reseller (VAR) â€' Refer relevant NCVET Guidelines.*	**a. MNC Name:** N/A **b. Qualification Name as per MNC:** N/A	
9.	**National Qualification Register (NQR) Code and Version** *(Issued after NSQC approval)*	**a. NQR Code:** N/A **b. Version:** N/A	**10. NCrF/NSQF Level:** 3
11.	**Award (Certificate/Diploma/Advance Diploma/ Any Other)**	Certificate	
12.	**Brief Description of the Qualification**	This program is for training the candidates to become competent as an Assistant Technician - Street Light Installation and Maintenance, who is responsible for making underground cables joints and preparing overhead cable terminations.	
	Eligibility Criteria for Entry for Students/Trainee/Learner/Employee :		

13.

a. Entry Qualification and Relevant Experience:

S.No.	NSQF Level	Academic /Tech Education Completed	Specialization (Academic /Tech Education Completed)	LTT/STT Completed	Specialization (LTT/STT Completed)	Academic /Tech Education Pursuing	Specialization (Academic /Tech Education Pursuing)	Previous NSQF Levels Achieved	Relevant Experience in Years	Relevant Specialization	Remarks
1	3	10th Grade	N/A	N/A	N/A	N/A	N/A	N/A	No Experience required	N/A	N/A
2	3	8th Grade	N/A	Two years of (NTC/ NAC) after 8th	N/A	N/A	N/A	N/A	No Experience required	N/A	N/A
3	3	8th Grade	N/A	N/A	N/A		N/A	N/A	3 years relevant experience	N/A	N/A
4	3	N/A	N/A	N/A	N/A	N/A	N/A	Previous relevant Qualification of NSQF Level 2	3 year relevant experience	N/A	N/A
5	3	N/A	N/A	N/A	N/A	N/A	N/A	Previous relevant qualification of NSQF Level 2.5	1.5 years relevant experience	N/A	N/A

b. Age *(Please specify age only in case of any legal restrictions)* : N/A

14.	**Training Duration by Modes of Training Delivery** *(Specify training Duration as per selected training delivery modes and as per requirement of the qualification. Refer Blended Learning guidelines and provide details in the Annexure.)*	Training Mode : Offline **a. Minimum Notional Hours** : 300 **b. Maximum Notional Hours** : 300
15.	**Credits Assigned to this Qualification, Subject to Assessment** *(As per National Credit Framework (NCrF). If qualification has Electives or Options, specify both Minimum and Maximum Credits.)*	**a. Minimum Credits** : 10.0 **b. Maximum Credits** : 10.0

25.	**Aspects Covered** *(If yes, specify the Component which covers it, else provide rationale for not including this aspect in the qualification.)*	**Component Details:** Apply basic health and safety practices for power related work and Employability Skills **Rationale:** N/A	
26.	**Is Qualification Suitable to be Offered in Schools/Colleges**	N/A	
27.	**Name and Contact Details of Submitting / Awarding Body SPOC** *(In case of Cross-Sectoral or Multi-Skill qualification provide details of both Lead AB and Supporting ABs.)*	**Name:** Gunjan Kumar Dubey **Email:** gunjan.dubey@psscindia.org **Contact No.:** 8968036402 **Website:** https://psscindia.org/	
28.	**Date of Approval by NSQC:** 08/05/2025	**29. Validity Duration:** N/A	**30. Next Review Date:** N/A

Section 2: Module Summary

NOS(s)/MC(s)/NC(s)/Module of Qualifications

***NOS**- National Occupational Standards **MC**- Micro-Credential **NC**- Nano-Credential*

Specify the training duration and assessment criteria at NOS/MC/NC/Module level. For further details refer to the curriculum document.

Formative assessment marks of the qualification to be included in result calculations: No

*(Formative assessment for a qualification is optional. If the check box is checked, then the specified Formative assessment marks are to be included in the **Total**.)*

Note: For all hands-on, practical, and viva assessments, video evidence needs to be captured and maintained through the assessment platform.

Compulsory Components:

Th. - Theory **Pr.** - Practical **OJT Man.** - On the Job Mandatory Training **Proj.** - Project

Mandatory:

Section 3: Skill Taxonomy

Master Data For The Sector Selected In Basic Details Is Not Available.

Section 4: Training Related

1. **Trainer's Qualification and experience in relevant sector** (in years)
(As per NCVET guidelines. If multiple combinations of qualification and experience are envisaged, mention each combination)

S.No.	Minimum Educational Criteria	Specialization	Relevant Industry Experience Years	Relevant Industry Experience Specialization	Relevant Training Experience Years	Relevant Training Experience Specialization	Remarks
1	BE/ BTech	Electrical Engineering	1.0	As Engineer in State power utility or with turnkey contractors	0.0	0	no
2	Diploma	Electrical Engineering	3.0	As Junior Engineer in State power utility or with turnkey contractors	0.0	0	no

Trainer's Certification:

S.No.	Domain Certification	Platform Certification
1	Assistant Technician - Street Light Installation and Maintenance, PSS /Q2506, v4.0. Minimum accepted score is 80%.	Trainer (VET and Skills), mapped to the Qualification Pack: MEP/2601, v2.0 with minimum score of 80%.

2. **Master Trainer's Qualification and experience in relevant sector** (in years)
(As per NCVET guidelines. If multiple combinations of qualification and experience are envisaged, mention each combination)

N/A

Master Trainer's Certification:

3. **Tools and Equipment Required for Training**

Yes

Section 5: Assessment Related

1. **Assessor's Qualification and experience in relevant sector** (in years)
(As per NCVET guidelines. If multiple combinations of qualification and experience are envisaged, mention each combination)

S.No.	Minimum Educational Criteria	Specialization	Relevant Industry Years	Relevant Industry Specialization	Relevant Training Years	Relevant Training Specialization	Remarks
1	BE/ BTech	Electrical Engineering	1.0	As Engineer in State power utility or with turnkey contractors	0.0	0	no
2	Diploma	Electrical Engineering	3.0	As Junior Engineer in State power utility or with turnkey contractors	0.0	0	no

Assessor's Certification:

S.No.	Domain Certification	Platform Certification
1	Assistant Technician - Street Light Installation and Maintenance, PSS /Q2506, v4.0. Minimum accepted score is 80%.	Assessor (VET and Skills), mapped to the Qualification Pack: MEP/Q2701, v2. 0 with minimum score of 80%.

2. **Proctor's Qualification and experience in relevant sector** (in years)
(As per NCVET guidelines. If multiple combinations of qualification and experience are envisaged, mention each combination)

S.No.	Minimum Educational Criteria	Specialization	Relevant Industry Years	Relevant Industry Specialization	Relevant Training Years	Relevant Training Specialization	Remarks
1	BE/ BTech	Electrical Engineering	1.0	As Engineer in State power utility or with turnkey contractors	0.0	0	no
		Electrical		As Junior Engineer in State power			

		2	Diploma	Engineering	3.0	utility or with turnkey contractors	0.0	0	no

3. **Master Assessor's/Proctor's Qualification and experience in relevant sector** (in years)
(As per NCVET guidelines. If multiple combinations of qualification and experience are envisaged, mention each combination)

S.No.	Minimum Educational Criteria	Specialization	Relevant Industry Years	Relevant Industry Specialization	Relevant Training Years	Relevant Training Specialization	Remarks
1	BE/ BTech	Electrical Engineering	1.0	As Engineer in State power utility or with turnkey contractors	0.0	0	0
2	Diploma	Electrical Engineering	3.0	As Junior Engineer in State power utility or with turnkey contractors	0.0	0	0

Master Assessor's Certification:

S.No.	Domain Certification	Platform Certification
1	Assistant Technician - Street Light Installation and Maintenance, PSS /Q2506, v4.0. Minimum accepted score is 80%.	Assessor (VET and Skills), mapped to the Qualification Pack: MEP/Q2701, v2. 0 with minimum score of 80%.

4. **Assessment Mode**
(Specify the assessment mode- refer NCVET Guidelines)

Assessment Mode : Offline

5. **Tools and Equipment Required for Assessment**

Same as for training

Section 6: Evidence of the need for the Qualification

1. **Latest Skill Gap Study by AB/Indian/Global Organisations** (Study not older than 3 years) **(Yes/No):** No

2. **Latest Indian/Global Market, Research Reports, or any other source** (Not older than 2 years) **(Yes/No):** No

3. **Government /Industry initiatives/ requirement** (Yes/No) **:** No

4. **Number of Industry validation provided:**

Raj Traders, Sanjay Power Projects Pvt. Ltd., Bryn Construction Co., NACOF, Distil Ventures India Limited, IDS Management Consultant Pvt. Ltd., BSES Yamuna Power Ltd., Pee Kay Electric Works, Hi-Tech Engineers, Yogi Enterprise, AWI Construction, Jagdamba 01 Construction Company, Shri Hera Lal Shah, Ashok Enterprises, Yogi Contruction, Gyansri Enterprises, Surya Con Engineer, Paras Electromech, Cheena and Company, paras Enterprises, Gypeam Structure India Pvt Ltd, Gungun Enterprises, New Ape Techno Pvt Ltd, Shiv Shanker Engineers, S S and Company, Ram Enterprises, DKVS Pvt Ltd, Maa Annapoorna Construction, Raheeq Infra Tech Pvt Ltd, YEO Social Ventures Pvt Ltd

5. **Estimated number of learners to be trained:**

S.No.	Year	Total Estimated Traning Number	Total Estimated Employment Opportunities	Women Estimated Traning Number	Women Estimated Employment Opportunities	Persons with Disabilities (PwDs) Estimated Traning Number	Persons with Disabilities (PwDs) Estimated Employment Opportunities
1	2026-2027	100	90	10	10	0	0
2	2027-2028	100	90	10	10	0	0
3	2028-2029	100	90	10	10	0	0
Total		300	270	30	30	0	0

6.	**Evidence of Concurrence/Consultation with Line Ministry/State Departments :** Yes

Annexure: Evidence of Level

NSQF Domain	Key requirements of the job role/ outcome of the qualification	How the job role/ outcomes relate to the NSQF Level Descriptor
Professional Theoretical Knowledge/Process	Possesses knowledge involving a defined range of standard procedures employed in routine contexts. Understands the basic concept of timely delivery and Quality. Can interpret the available information and communicate the same. Basic knowledge of collecting and organizing information for problem identification and solution. Understands the basic financial and, Uses limited discretion and judgement over a range of known responses to familiar problems.Range of knowledge Knowledge involving a defined range of standard procedures, uses limited discretion and judgement over a range of known responses to familiar problems	The job expects a person to carry out a job which may require limited range of activities routine and predictable.Hence, it qualifies as a Level 3 role. Since it does not involve situation of clear choice, the role does not qualify for Level 4. This role requires the job holder to work in a familiar, routine, predictable, and the activities that h/she is expected to perform are not repetitive, Work requires the ability to lift large heavy objects poles and perform strenuous physical labor, on a regular basis, with little application of understanding, more of practice. Hence it cannot be placed at level 2
Professional and Technical Skills/ Expertise/ Professional Knowledge	A range of skills and technical capabilities of carrying out a choice of processes and procedures within the range of familiar contexts. The ability to gain, and where relevant apply a range of knowledge, skills and understanding. Has the required skills for Identification of the problem and issues within the range of familiar contexts and generate possible solution. Skills to identify the relevant tools and materials in given context. Possesses operational knowledge and understanding of the work/ job. Skill to deliver job/work with reasonable precision.Range of technical skills Required skills for Identification of the problem and issues within the range of familiar contexts	The job holder is expected to have Basic facts, process and principle applied in trade of employment. The role qualifies for Level 3.The job holder is expected to be familiar with all machines and equipments. He/she is not expected to know material, tools and applications in a limited context, understands context of work and quality, and the technical specification of LED lights and associated, so it cannot be pegged at level 2.
Employment Readiness & Entrepreneurship Skills & Mind-set /Professional Skill	Working as a member of a team/ within a team. Display Personal Motivation. Positive Attitude and Passion for Work, Good skills in written and oral communication with some clarity, basic knowledge of Language to support such communication. Intermediate literacy and Numeracy skills, Skills for workshop calculations and basic of arithmetic and algebraic principles. Have broader Employability Skills including self employment and minientrepreneurship skills creating job for more than 1 person. Can use digital tools, has basic Financial and Digital literacy, Aadhar and Mobile, digital payments etc with some proficiency. Basic understanding of social political natural and work environment. Basic understanding of Constitutional values and Citizenship, inclusion and DiversityTeam readiness and Enterpreurial readinessTeam worker, with broad employability skills who displays of motivation and positive attitude for work.	The job holder is expected to carry out recall and demonstrate practical skill, routine and repetitive in narrow range of application, hence qualifying the role for a Level 3. As this job does not requires limited service skills used in limited context; select and apply tools; assist in professional works with no variables; differentiate good and bad quality and apply domain information to set and define operationTherefore, it cannot be pegged at level 2.
Broad Learning Outcomes/Core Skill	The candidate must be able to carry out job/ work/ tasks/ /small project /assignments in a familiar, predictable, routine, situation of clear choice. Focus on range of application of standard procedures or operations in production/ services. Able to identify/ anticipate the problems and possible range of solutions in production/ services, Tasks are mostly performed by own and require little instructions and supervision. Understands all safety and general hygiene norms and environmental aspects, together with Risks. For self help group members, mini entrepreneurs end to end clear understanding of production process, quality parameters, delivery and local marketing.Carry out Range of tasks and may provide range of solutionsThe candidate carries out a job in familiar, predictable, routine, situation of clear choice, can focus on range of application of standard procedures or operations in production/ services. Must be able to identify/ anticipate the problems and possible range of solutions	The job holder is expected to Communication written and oral, with minimum required clarity, skill of basic arithmetic and algebraic principles, personal banking, basic understanding of social and natural environment. Hence, this role qualifies for Level 3. As this job does not requires to receive and transmit written and oral messages, basic arithmetic, personal financing and understanding of social, political, and religious diversity, hygiene and environment and ensure proper wiring and connection for erection of street light fixture Therefore, it cannot be pegged at level 2The role does not requires to possess skills and language to communicate written or oral, with required clarity, skill to basic arithmetic and algebraic principles, basic understanding of social political and natural environment. Hence cannot be pegged at level 4
	Takes responsibility for delivery and quality of own work and tangible output. At Level 2.5 the candidate is a Junior Technician. At level 3.0 the candidate works as a skilled worker/ technician. Take work from the helpers	The job holder is having some responsibility for own work under close supervision within defined limit and ensure safety measures of working on

Responsibility	or assistants and collaboratively work with junior technician. Able to assist in the planning of the routine and predictable tasks within a specific field. Accountable/ responsible Jr. Technician and TechnicianTakes responsibility for delivery and quality of own work and tangible output. Can assist in the planning of the routine and predictable tasks within a specific field.	height, Hence, this role qualifies for Level 3. It does not comprise of any supervisory activities.Since, the job holder is expected to be responsible for own working under defined limit and is not responsible for own work and learning. Therefore, this role cannot be pegged at level 4.

Annexure: Tools and Equipment (Lab Set-Up)

List of Tools and Equipment

Batch Size : 30

S.No.	Tool or Equipment Name	Specification	Tool or Equipment ratio per the number of learners	Remarks
1	Mercury Vapour Lamp With Complete Fitting	As per requirement	15:1	no
2	Sodium Vapour Lamp 150/250 watt , With Comlete Fitting	As per requirement	15:1	no
3	Fluresent Lamp With Complete Single And Double Lamp Fitting	As per requirement	15:1	no
4	Led Street Light (40 Watt) With Complete Fitting	As per requirement	10:1	no
5	Double Pole 16,32 Amp Mcbs And Kit Kat Fuse Sets	As per requirement	10:1	no
6	Multimeter	As per requirement	15:1	no
7	Clamp On Tester Or Clip On Meter To Test Line Current	As per requirement	10:1	-
8	LT Megger 500 Volts	As per requirement	30:1	-
9	Screw Driver	As per requirement	2:1	-
10	Phase Tester	As per requirement	6:1	-
11	Combination Pliers	As per requirement	6:1	-
12	Nose Pliers	As per requirement	6:1	-

NOS	Perform testing and repairing of street lighting system	identify testing equipment such as tester, multimeter, wire, bulb etc. required during maintenance work	-	-	-	-	-
	Perform	check all the intersections, joints,					

NOS	testing and repairing of street lighting system	junction box, street light fixture, light bulb etc. for any defect as per the checklist	-	-	-	-	-
NOS	Perform testing and repairing of street lighting system	use lux meter to check the lux level of light fixture	-	-	-	-	-
NOS	Perform testing and repairing of street lighting system	test the supply across the MCB / ON-OFF switch and all the joints and intersections in the wiring	-	-	-	-	-
NOS	Perform testing and repairing of street lighting system	test the cable and lamp head by multimeter or tester or clipon meter for checking the continuity of supply	-	-	-	-	-
NOS	Perform testing and repairing of street lighting system	check the fixture and other parts of street light system	-	-	-	-	-

NOS	Perform testing and repairing of street lighting system	check the photoelectric control relay and surge protection devices of lighting system and repair or replace in case of any defect or problem as per the organizational procedures	-	-	-	-	-
NOS	Perform testing and repairing of street lighting system	troubleshoot underground electrical wiring and repair it in case of any problem	-	-	-	-	-
NOS	Perform testing and repairing of	check the street light equipment including drivers, heads, poles, controllers, lights, circuitry, switches, fuses, and	-	-	-	-	-

	street lighting system	cabinet and repair or replace in case of any defect or problem as per the organizational procedures					
NOS	Perform testing and repairing of street lighting system	replace and retrofit the existing light fixture with modern light fixture, where required	-	-	-	-	-
Total			**N/A**	**26.0**	**74.0**	**0.0**	**0.0**
NOS	Perform installation of street lighting system	carry out the root survey for planning of the street lighting system installation and cable lay work	-	-	-	-	-
NOS	Perform installation of street lighting system	identify tools and equipment required for street light installation	-	-	-	-	-
		select					

NOS	Perform installation of street lighting system	appropriate type of lighting system based on the requirements and parameters i.e. wattage and lumen level	-	-	-	-	-
NOS	Perform installation of street lighting system	test light fixture and drivers, prior to the installation	-	-	-	-	-
NOS	Perform installation of street lighting system	install protection devices such as surge protection device, voltage fluctuation, over voltage protection etc.	-	-	-	-	-
NOS	Perform installation of street lighting system	connect the streetlight fixture with the power line meant for street lighting	-	-	-	-	-
		set timing on lighting					

NOS	Perform installation of street lighting system	system control switch for automatic switch on and off operation of light	-	-	-	-	-
NOS	Perform installation of street lighting system	select and lay underground cable for street lighting as per the standards	-	-	-	-	-
NOS	Perform installation of street lighting system	connect power supply from distribution transformer to the street lighting system	-	-	-	-	-
NOS	Perform installation of street lighting system	troubleshoot and rectify all the problems involved in underground electrical wiring	-	-	-	-	-
NOS	Perform installation of street lighting system	report to supervisor or engineer any problem if needed in laying down the wiring	-	-	-	-	-

NOS	Perform installation of street lighting system	perform primary testing on the cables and connections of street light	-	-	-	-	-
NOS	Perform installation of street lighting system	Identify solar PV components such as panels, charge controllers, batteries, and LED fixtures used in solar street lighting.	-	-	-	-	-
NOS	Perform installation of street lighting system	Assess site conditions such as sunlight exposure, shading, and structural support for solar panel mounting on poles or brackets.	-	-	-	-	-
NOS	Perform installation of street lighting	Install solar PV panels and mounting hardware securely as per standard	-	-	-	-	-

	system	safety and manufacturer guidelines.					
NOS	Perform installation of street lighting system	Mount battery and charge controller units in weather-protected enclosures following connection diagrams.	-	-	-	-	-
NOS	Perform installation of street lighting system	Connect the solar PV module, battery, controller, and LED light correctly using proper cables and terminals.	-	-	-	-	-
NOS	Perform installation of street lighting system	Integrate solar PV lighting systems with existing pole-mounted street lights or standalone units as per project needs.	-	-	-	-	-
		Test the					

NOS	Perform installation of street lighting system	system for solar charging efficiency, battery backup, and auto-switching function using multimeter and load tests.	-	-	-	-	-
NOS	Perform installation of street lighting system	Identify and report basic faults such as loose connections, shading issues, or low battery charging in solar PV street lights.	-	-	-	-	-
